

14 October 1975

MEMORANDUM FOR THE RECORD

SUBJECT: DCID 1/7

1. On 14 October 1975 [redacted] Director of Security, CIA, met with [redacted] request to discuss problems DIA is encountering in regard to revised DCID 1/7, effective 5 October 1975. Also present at this meeting [redacted]

25X1

2. The present concern with the DCID was pointed out by [redacted] to be with the authorized control marking "DISSEMINATION AND EXTRACTION OF INFORMATION CONTROLLED BY ORIGINATOR (ORCON)." He stated that DIA provides dissemination of DoD-produced finished intelligence and intelligence information throughout DoD worldwide and to non-DoD members of the intelligence community. DIA also provides dissemination of non-DoD produced intelligence to the entire DoD. This is done by maintaining standing validated requirements on automated dissemination systems. The Finished Recurring Intelligence File (PRIF) provides dissemination of intelligence reports.

25X1

3. The ORCON control marking is felt to preclude DIA from accomplishing its dissemination mission. Because ORCON material will not be disseminated beyond the Headquarters elements of recipient organizations (without the permission of and under conditions prescribed by the originator) finished intelligence and intelligence reports cannot be disseminated to other legitimate organizations or to legitimate DIA elements below the command level.

4. [redacted] feels that ORCON is a very restrictive control, equating possibly to EYES ONLY, and once permission is obtained from the originator to disseminate below the command level, the ORCON caveat should be dropped.

STAT

5. Following a discussion of this matter, [REDACTED] recognizing DIA's problem as well as the DDO position, decided that the Security Committee should meet on this subject at an early date.
